Education

PhD in Statistics, University of Toronto

Sep 2026 -

- Advisors: Joshua Speagle, Thibault Randrianarisoa

MSc in Statistics, University of Toronto

Sep 2025 - Jun 2026

- Advisor: Nancy Reid
- Relevant coursework: Applied statistics, mathematical statistics, graduate probability, survival analysis, asymptotic statistics, statistical inference

Honours BSc in Statistics/Mathematics, University of Toronto

Sep 2021 - Jun 2025

- Advisor: Jun Young Park
- Graduated with high distinction

Publications and Preprints

†: Corresponding Author; *: Equal contribution

Published

1. Michael A. Kouritzin, **Ian Zhang**[†], Jyoti Bhadana, Seoyeon Park. Markov processes for enhanced deepfake generation and detection[J]. *AIMS Mathematics*, 2026, 11(4): 11731-11759. doi: 10.3934/math.2026483

In Progress

1. Aditya Khan, **Ian Zhang** 2025
Parametric Hotspot Analysis with the Getis-Ord Statistic
2. Hanlong Chen*, **Ian Zhang***, ..., Howard Chertkow, ..., Malcolm Binns 2026
Reproducible Dementia Subtyping through Cross-Validated Joint Hyperparameter Optimization of PCA dimensionality and k in Unsupervised Clustering
3. **Ian Zhang**, Thibault Randrianarisoa 2026
Likelihood tempering to mitigate prior dominance in variational posteriors for Bayesian neural networks

Research Experience

Graduate Research Assistant, Baycrest Institute/University of Toronto *2025-Present*
Supervisor: Malcolm Binns

Summer Research Trainee, McGill University *2025*
Supervisor: Jianguo (Jeff) Xia

Research Assistant, University of Alberta *2023-2024*
Supervisor: Mike Kouritzin

Teaching

Teaching Assistant

MAT137: Calculus with Proofs *Fall 2025 & Winter 2026*
STA302: Methods of Data Analysis I *Fall 2025*
STA437: Methods of Multivariate Data *Winter 2026*

Presentations

Conference Talks

2026 Joint Statistical Meetings *2026*
Will be presenting *RAMA: Redundancy-Aware Model Assessment for PCA-Based Clinical Subtype Discovery*.

2026 SSC Annual Meeting in Hamilton *2026*
Will be presenting *Likelihood tempering to mitigate prior dominance in variational inference for Bayesian neural networks*.

2025 SSC Annual Meeting in Saskatoon *2025*
Presented *Markov Processes for Enhanced Deepfake Generation and Detection* in the Probability session.

Third Joint SIAM/CAIMS Annual Meetings *2025*
Presented *Markov Processes for Enhanced Deepfake Generation and Detection* in the Machine Learning and Stochastic Processes session.

Posters

The Thirteenth Annual Canadian Statistics Student Conference *2025*
Presented *Comparing Exact and Approximate Inference for Spatial Autocorrelation Tests: A Power Analysis*.

Honours and Awards

Anna & Alex Beverly Memorial Fellowship

2025

Awarded by University College (University of Toronto) for general proficiency during my undergraduate degree.

NSERC Undergraduate Student Research Award (x2)

2023, 2024

Awarded by the University of Alberta to research Markov process methods for deepfake generation and detection.

Jack Zwaigenbaum Scholarship

2022

Awarded by University College (University of Toronto) for academic excellence in my first year of undergraduate studies.

Dean's List Scholar (x4)

2022, 2023, 2024, 2025

Awarded by the Faculty of Arts and Science (University of Toronto) for maintaining academic excellence every year of my undergraduate degree.

Grants

CSSC Travel Grant

2025

Awarded to full-time Canadian students presenting a poster or giving a talk at the Canadian Statistics Student Conference.

Services

Conferences

Session chair, 2025 Third Joint SIAM/CAIMS Annual Meetings

Chaired the “Machine Learning and Stochastic Processes” session.

Other

Citizenship: Canadian

Languages Spoken: English (native), Mandarin (native), Japanese (intermediate)

Memberships: Statistical Society of Canada
